SUMMARY

Creative full stack developer who possesses a passion for designing fully functional, yet elegant web applications using C#/.NET, Python, and JavaScript. My background of collaborating on diverse teams in enterprise technology sales, combined with my technical development abilities, provide me with a unique skill set that I look forward to utilizing on a team of dedicated developers. As a lifelong learner and graduate from Coding Dojo, I am honored to be a part of Collabera's/Cognixia's JUMP Program where I have the unique opportunity to continue to develop my programming skills and expand my knowledge of modern software developmental methodologies.

PROJECTS

WEDDING-PLANNER ([REPO ON GITHUB](#))

- A community wedding planner application, developed as a solo project
- *Features:* Login/registration with validations, add/remove weddings from community board, view specific wedding's details/guestlist, RSVP/UN-RSVP to weddings
- *Technologies:* C#, ASP.NET Core MVC, EF Core, MySQL, Google Maps API, Bootstrap

QUOTE-LIBRARY ([REPO ON GITHUB](#))

- A virtual quote library application, developed as a solo project
- *Features:* Login/registration with validations, post/delete quotes to library, add/remove quotes to user's "favorite" list, view specific user's profile and their quote contributions to the community
- *Technologies:* Python, Django, SQLite, MySQL, Bootstrap, Amazon EC2

ACTIVITY-CENTER ([REPO ON GITHUB](#))

- An activity planning and virtual networking application, developed as a solo project
- *Features:* Login and registration with validations, add/remove activities from community board, view specific activity's details/guestlist, RSVP/UN-RSVP to activities
- *Technologies:* C#, ASP.NET Core MVC, EF Core, MySQL, Bootstrap

EXPERIENCE

SALES DEVELOPMENT REPRESENTATIVE

Pure Storage | Chicago, IL | 2/2018 – 2/2019

- Managed the prospecting of a 900+ target account base, setting qualified meetings for NYC field team to discuss next-generation IT projects with companies ranging from Fortune 500 corporations to enterprises; achieved 100%+ of quota Q3 and Q4 in FY19
- Collaborated daily with 70+ NYC team members to perform tailored informational demos on Pure's proprietary software/hardware to prospective clients and cultivate relationships with external partners through joint initiatives

TECHNICAL CONSULTANT

Double Eagle Brand | Indianapolis, IN | 9/2017 – 2/2018

- Provided technical insight and implemented a customer relationship management (CRM) tool to manage 700+ client account base; improved task efficiency by 30%+
- Conducted extensive research and assisted in the installation of a product bar-code infrastructure for 120+ product line; reduced inventory costs by 15%+

CLIENT ACCOUNT EXECUTIVE

Echo Global Logistics | Chicago, IL | 9/2015 – 9/2017

- Managed the prospecting and qualifying of up to 450 leads weekly; established a 21-client Book of Business (BOB), generating \$250K+ in revenue
- Executed tailored demos to clients on Echo's SaaS product features through technical insight of product capabilities and analysis of clients' needs; implemented SaaS solutions with 50%+ of BOB
