Community Volunteer

IU Community Service-Learning Project

Shalom Community Center
Bloomington, IN | 1/2015 – 5/2015
Hospitality Volunteer

SUMMARY

Creative full stack developer who possesses a passion for designing fully functional, yet elegant web applications using Python, JavaScript, and C#/NET. My background of collaborating on diverse teams in enterprise technology sales, combined with my technical development abilities, provide me with a unique skill set that I look forward to utilizing on a team of dedicated developers. As a lifelong learner and recent graduate from Coding Dojo, I am actively seeking employment opportunities where I can continue to develop my programming skills and build robust, user-friendly web applications and products.

PROJECTS

LIFT ([REPO ON GITHUB](#))

- A fitness and wellness application, developed as a group project at Coding Dojo
- Contributions: Implemented CSS Styling and Bootstrap, developed back-end routing for creating and editing profile/workout schedule, used fixture to populate database with workouts, created front-end validations to control application functionality
- Technologies: Python, Django, MySQL, Bootstrap, AWS

WEATHER-CENTRAL ([REPO ON GITHUB](#))

- A weather forecasting application, developed as a solo project
- Features: (12) Component-Single Page Application (SPA) that allows users to look at the current temperature/humidity forecasts of the USA's largest cities
- Technologies: JavaScript, TypeScript, MongoDB (Mongoose.js), Express.js, Angular, Node.js, OpenWeatherMap's API, Bootstrap, AWS

WEDDING-PLANNER ([REPO ON GITHUB](#))

- A community wedding planner application, developed as a solo project
- Features: Login and registration with validations, add/remove weddings from community board, view specific wedding's details/guestlist, RSVP/UN-RSVP to weddings
- Technologies: C#, ASP.NET MVC, EF Core, MySQL, Google's Maps API, Bootstrap, AWS

EXPERIENCE

SALES DEVELOPMENT REPRESENTATIVE

Pure Storage | Chicago, IL | 2/2018 – 2/2019

- Managed the prospecting of a 900+ target account base, setting qualified meetings for NYC field team with companies ranging from Fortune 500 corporations to enterprises; achieved 100%+ of quota Q3 and Q4 in FY19
- Collaborated daily with 70+ team members, ranging from solution engineers to account executives; developed \$2.5+ million in pipeline, generating \$1.3+ million in revenue

TECHNICAL CONSULTANT

Double Eagle Brand | Indianapolis, IN | 9/2017 – 2/2018

- Provided technical insight and implemented a customer relationship management (CRM) tool to manage 700+ client account base; improved task efficiency by 30%+
- Conducted extensive research and assisted in the installation of a product bar-code infrastructure for 120+ product line; reduced inventory costs by 15%+

CLIENT ACCOUNT EXECUTIVE

Echo Global Logistics | Chicago, IL | 9/2015 – 9/2017

- Managed the prospecting and qualifying of up to 450 leads weekly; established a 21-client Book of Business (BOB), generating \$250K+ in revenue
- Executed tailored demos to clients on Echo's SaaS product features through technical insight of product capabilities and analysis of clients' needs; implemented SaaS solutions with more than 50% of BOB
